Hiring Manager
Chubb India
Bangalore, India

Subject: Application for Software Engineer Position

Dear Hiring Manager,

I am excited to apply for the Software Engineer position at Chubb India. My expertise in full-stack development and cloud platforms, combined with my passion for building scalable solutions, aligns perfectly with your team's goals.

During my internship at Healthletic Lifestyle, I developed responsive UIs using Next.js, improving user engagement by 35%, and optimized API integrations to reduce load times by 25%. Additionally, I designed the AWS Logs Exporter, automating log processing by 70%. My strong foundation in OOP and problem-solving skills, demonstrated through my achievements in competitive programming (TCS CodeVita Global Rank 3359, LeetCode Top 14.12%), make me confident in quickly adapting to .NET/C# for your projects.

I would welcome the opportunity to contribute to Chubb's innovative environment. Thank you for your time and consideration.

Best regards,
Gaurav Singh
